

Risk Reduction Workshop from CareWorksComp and RiskControl360°

CareWorksComp is pleased to invite you to an exclusive Ohio Workers' Compensation Workshop:

How to Apply Intermediate and Advanced Risk Reduction Solutions to Ohio Workers' Compensation.

Our panel of experts will talk about how we assist businesses in identifying leading measures that show a clear return on investment. We want to share our unique approach to risk and have you join our discussion.

Today's business environment is competitive and strong. Companies want to attract and retain the best labor and talent across all industries, create processes and practices to help them innovate and grow, and of course, reduce risk. Our workshop focuses on how businesses can partner and collaborate to develop a holistic action plan to achieve their goals. The workshop is intended for directors and managers in the areas of finance, human resources, or safety.

Workshops Available
